Was Silent on all the important issues impacting our city

It's time to put Summit ahead of Party Labels
It's time for INDEPENDENT Leadership, because with Mike
... "It's all about Summit all the time."

Mike wants to keep our Police and Fire Departments strong ... that's why the PBA endorsed him, the first time they ever endorsed. He is a leader in introducing traffic calming measures to slow down speeders. He introduced ordinances to prevent helipads, share services with other towns & rename our cherished field as Tatlock Park. He has pursued grants for the benefit of our children. After all, he grew up here.

"If you are as concerned with self serving partisan politics, please join the Independent movement to put people over politics. Help me build a coalition of real leaders that only care about doing what is best for Summit. There is never a wrong time to do the right thing." Mike Vernotico SHS '64
